NEWS REVIEW OF CURRENT EVENTS

Hoover's Choice of Dawes as Ambassador to London Pleases Everybody.

By EDWARD W. PICKARD

PRESIDENT HOOVER'S selection of Gen. Charles G. Dawes for the high post of ambassador to the court of St. James was a happy one. It meets with the general approval of the people of the United States, if newspaper comment is indicative, and the government and press of England give assurance that Mr. Dawes will be enthusiastically welcomed in London. In accepting the appointment Mr. Dawes made the stipulation that he be given time to conclude his work in Santo Domingo, where he and a commission are establishing a budget system for the government. This job will be ended in four or five weeks. Then he will visit his Chicago home and go to Washington for conferences with President Hoover and Secretary of State Stimson on policies to be followed, so it is likely he will not assume his duties in London before the end of June.

Special gratification over Mr. Dawes' selection was expressed by the British government in reply to the formal inquiry by the State department. It is understood that President Hoover is counting upon Mr. Dawes to bring about a new era of good feeling between the two nations. Friction has arisen recently over a number of matters, including the question of naval construction. Mr. Dawes will be particularly qualified to deal with questions relative to German reparations. The London newspapers say that while England is sorry to part with Ambassador Alanson B. Houghton, who has been quite successful there, no successor could be more welcome than Mr. Dawes.

EVERYTHING was made ready during the week for the special session of congress, and the President said it be known that he especially desired the enactment of a farm relief measure before June 1 so that the relief organization may be functioning in time to help in marketing the next harvest. The administration bill is based on the McNary measure which was indorsed by Secretary of Agriculture Hyde. Tariff revision is likely to cause more trouble in congress than the farm legislation. Urged on by the sugar beet growers and beet sugar producers of the West and the cane sugar men of Louisiana and Texas, the Republicans of the lower house, it is expected, will make a determined fight for substantial increases in the duties on sugar. The battle in both house and senate over this is likely to be prolonged. The proposition to revive the tariff on long staple cotton, which was abolished in 1921, has been brought from the General Agricultural Syndicate of Egypt an earnest plea in opposition. The measure, says the syndicate's president, not only would be injurious to Egypt and to the relations between the two countries, but it also "would inflict harm on American spinners of fine cotton, purchasers of fabrics made from it, purchasers of automobile tires and manufacturers of ties in which long staple cotton is used. It would make the United States lose the place which her cotton fabrics have obtained abroad where they have succeeded in competing seriously with other countries."

President Hoover received a large delegation of union labor leaders who asked that the views of labor be taken into consideration in the working out of the new tariff schedules. The delegation also urged the appointment of a representative of organized labor on the tariff committee.

SECRETARY OF STATE STIMSON, appealed to by Vice President Curtis to rescind the ruling of his predecessor concerning the official status of Mrs. Gann, the Vice President's wife that he would not accept Mr. Kellogg's ruling, and replying to the diplomats that they would have to arrange for themselves the problem of where Mrs. Gann was to be seated at official dinners. So the foreign ambassadors and ministers got together and after discussing the matter for several hours, notified the State department that until some definite ruling was laid down by that department Mrs. Gann would be accorded the rank and social status of the wife of a Vice President at all official and ceremonious diplomatic entertainments. This means that Mr. Curtis has won his fight, at least for the time being, and his sister will rank, at such functions, above all other women except Mrs. Hoover. Both Mr. Hoover and Mr. Stimson were annoyed by the affair into which the State department had been drawn, and the secretary said that his department would no longer act as social secretary for Washington hostesses, though it will aid Mrs. Hoover in arranging her dinner parties. The triumph of Mr. Curtis was first celebrated at a dinner given by the Chilean ambassador at which Mrs. Gann was seated as the ranking woman guest.

HARRY F. SINCLAIR may have to reside for three months in the District of Columbia jail and pay a fine of $500, for the Supreme Court of the United States upheld his conviction for contempt of the senate in refusing to testify before the Teapot Dome investigating committee five years ago. The decision, read by Justice Pierce Butler, was a complete victory for the government. It sustained at every point the powers proclaimed by the senate to compel testimony deemed necessary on the basis of possible legislation. The jail in Washington is an old structure with no exercise yard and is a decidedly uncomfortable place in which to live. Sinclair may be sent to the prison farm instead.

LEVIATHAN, which together with ten other ships of the government-owned lines, was bought by the U. S. Lines, Inc., last week started for Southampton on her first trip as a privately owned American vessel, and as she got beyond the twelve-mile limit she became a "wet" ship. Her medical liquor supplies were opened for sale to passengers, though there was no public bar. The same course will be taken on the other ships purchased by Paul W. Chapman's company, a legal opinion that the plan adopted would be no violation of the law having been obtained. Before the Leviathan's departure from New York a federal order was obtained granting the ship the right to enter the port on return with a certain amount of liquor under seal. When the ship reaches the twelve-mile limit on return that amount will be stowed away, and if any liquor remains it will be dumped overboard.

SECTIONS of north central Arkansas were ravaged by a terrific tornado Wednesday night, and about fifty persons were killed and hundred injured. The village of Guion was blown completely away, five perishing, while in a farm settlement near Swifton more than a score of men, women and children were killed. Because the districts where the storm struck were rather sparsely settled the property loss was not great.

Tornadoes also struck in Minnesota and Wisconsin, resulting in the deaths of about ten persons and considerable damage to property.

DEFEATED at Jiminez, repulsed in their fierce attacks on Naco and forced to evacuate Juarez and Chihuahua City, the Mexican rebels began moving such troops as they could toward the west, apparently intending to concentrate their fight in the state of Sonora. General Escobar, who was elected "provisional president" by the revolutionary leaders, started his army toward the coast, abandoning the entire state of Chihuahua, and himself arrived in Agua Prieta, on the border just east of Naco, by airplane. General Calles with six troop trains arrived at Nazatlan, Sinalon, and organized his forces for the campaign on the Pacific coast.

Though the federal garrison in Naco had withstood the assaults of the rebels, its situation was becoming increasingly desperate, for Escobar was gathering about 8,000 men to besiege the place and these troops had good artillery and airplanes. To protect the American border, Maj. Gen. William Lassiter, commanding the Eighth Army corps area, ordered approximately 1,500 United States soldiers to Arizona and New Mexico points close to the international line. Eighteen army planes patrolling the border had orders to shoot any Mexican planes flying over American territory.

COL. CHARLES A. LINDBERGH doesn't care to have all his movements followed by a public that becomes alarmed for his safety as soon as he is out of its sight. Last week after a visit with his fiancee, Miss Anne Morrow, he took off from Mexico City for the north. Because he did not show up in Texas when expected, there were rumors of disaster and suggestions of searching parties. But he finally landed at Brownsville, unruffled except by the public concern, and more than intimated that where he had spent the night was his own concern. Then he again took off on his way to New York, where the body of his friend, the late Ambassador Herrick, arrived on Saturday from France.

REV. SIDNEY J. CATTS, the picturesque former governor of Florida, is in deep trouble. A federal grand jury in Jacksonville indicted him on the charge of having financed a ring of counterfeiters in Tampa who planned to make vast quantities of bogus $20 bills and "shove" them through the assistance of a bank employee in New York. Catts is charged with having given the counterfeiters $5,000 in return for which he was to receive $25,000 in the fake notes.

HERE'S something novel in the way of speculation "acquires," Congressman L. C. Dyer of St. Louis, Mo., took a flyer in the stock of Hiram Walker, Inc., Canadian whisky distillers, and says he did it in complete ignorance that the company manufactured and sold liquor contraband in the United States. As soon as he learned the truth, he says, he sold, and so eager was he to get rid of the stock that he did not bother about the price, and lost money. Now he has demanded that the governors of the New York curb exchange refinburse him for the loss, contending that the exchange has no right to deal in whisky securities.

SIXTEEN members of the Chicago Association of Candy Jobbers, tried in Federal court in Chicago on charges of violating the Sherman antitrust law, were found guilty and face sentences of one year in jail and $5,000 fine each. Eighteen others were acquitted. The defendants were charged with conspiring to fix prices in the candy industry and to stifle competition in violation of the law prohibiting the restraint of trade.

CALVIN COOLIDGE, ex-President of the United States, has accepted an invitation to become a member of the board of directors of the New York Life Insurance company and will be elected at the May meeting of the board to succeed the late Myron T. Herrick. In a letter to the president of the company, agreeing to serve, Mr. Coolidge wrote that to him a great life insurance company is the very symbol of thrift, a co-operative society for the advancement of the public welfare, and a character builder.

LOST since March 31 in the wilds of western Australia, the trans pacific plane Southern Cross has been found by a searching airman on a mud flat, and the crew of four men were reported to be alive. Food was dropped to them. The crew consisted of Capt. Charles Kingsford-Smith, C. T. O. Ulm, a navigator named Litch field and a radio man named Mc. William.

GOV. HUEY P. LONG of Louisiana was impeached by the state house of representatives on a total of nineteen charges and the legislators continued consideration of the other charges.

THE Mexican revolution is slowly disintegrating. The army of Gen. F. Ellas Calles is in full retreat, relentless pleading northward. Jiminez, former headquarters of the rebel commander-in-chief, Gen. Jose Gonzalo Escobar, has been occupied by the federals. The rebels also abandoned the place on the approach of the federal troops.

The town of Douglas, Ariz., has got in bad because of the revolution. Charges that Escobar's troops stole guns and 37,000 rounds of ammunition that had been sold to the Mexican rebels for $2,000 and that the city received only $500 of the money precipitated an investigation of the whole city administration by the United States Department of Justice. Several city officials were arrested and later released under bonds pending trial on charges of conspiring to smuggle arms across the border.

THE Radio Corporation of America has sold its communication interests to the International Telegraph and Telephone company, receiving stock equivalent to $100,000,000.

The deal makes I. T. & T. the largest International communications system in the world and apparently leaves Radio Corporation as a manufacturing and distributing company for radio apparatus, phonographs and talking films, divorcing it completely from communication enterprises.

COUNTING INDIANS AN EXACTING JOB

Woman Completes Task of Listing 50,000 Navahos.

Washington.—Counting Indians may sound like a simple occupation, but Miss Rachel Jones, who has tallied 50,000 Navahos for their great white father in Washington, found there was a trick in it.

She just has completed a census of the chiefs, medicine men, squaws, papooses—all the Indians on the Navaho reservation in northern Arizona, Utah, Colorado and New Mexico, for the Indian bureau of the interior department.

"When I started," she said, "I walked miles and miles on rounds about the canyons and—I couldn't find an Indian! I had white guides.

"Then I thought of getting an Indian guide, and when I did I found that previously I had been walking past and over Indians all the time. The Navaho guides took me down the canyons and into the recesses of the hills, and there we found large groups whose presence could not even be suspected from the upper trails."

The census was made in the absence of birth certificates in the Indians' possession. The reservation contains vast stores of undeveloped wealth, and the Indian bureau wanted to establish rolls of the tribe in order that, when the question of property rights arose, there would be no doubt as to the identity of members of the tribe.

Miss Jones, a native of Michigan and a statistician trained at Vassar college, was in charge of the entire undertaking. She obtained two names of each Indian—his native name and the English one—and the age, sex, tribe, degree of native blood and family relationships.

She is now making a similar census of the Papago and Pima tribes in Arizona. She has a staff of white and English guides working at Indian bureau centers. One of her headquarters is the famous old San Xavier mission near Tucson.

Adrift 6 Days on Ice, Five Eskimos Survive

Ottawa, Ont.—The story of how a hunting party of Eskimos fought hunger and exhaustion for six days on an ice floe in Hudson straits without food or shelter was relayed to officials here by the government radio station at Nottingham island, where the five finally found refuge.

The men had set out February 21, venturing several hundred yards out on the floe in search of game. Without warning the ice on which they were broke adrift from the more ice, on which were their dog teams and supplies.

The floe drifted about in the pack ice of the straits. They had only their sealskin clothing to serve to appease their hunger and had to keep moving constantly to keep from freezing.

Finally their floe touched shore and the men made their way through 30 miles of wilderness to Boucherville.

The Family Circle

Some Dads and Mothers seem to feel,
When they sit down to eat a meal,
Their little folks would spoil it.
The table-cloth from which they eat
Is, oh, so dainty, clean and neat—
And little hands might soil it!
The parents, though, of course, are proud
Of Little Sis and Brother—
But yet the tykes are not allowed
To eat with Dad and Mother.

And so the children eat alone;
And when they recall it, when they're grown—
I can't believe—with pleasure,
When they look back to days of old
The dinner-time, for them, will hold
Few mem'ries they will treasure
The dinner-hour that they should prize,
As one when life was splendid—
I'd have the fear they might despise
As one when smiles were ended!

My little tykes, I must confess,
The table-cloth are apt to mess—
But I proclaim—what of it!
A spotless cloth is nice to see,
But ours from spots is seldom free—
But even so, I love it!
And so, when we sit down to dine,
It's not just me and Mother—
But with us, too—their eyes ashine—
Are Little Sis and Brother.

How About It

And now the campaign for the Democratic nomination for governor is upon us. Pollard, Mapp and Page—all good Democrats—Mr. West withdraws and supports Mapp, Buchanan and Peery are in for Pollard. Berkley Adams is to conduct Mapp's campaign and Peery's Secretary is to conduct Pollard's fight.

There are no issues, the party has no candidate or platform of principles. The people will be reminded that the Democratic party is doing good work for the State and should be entrusted again with authority to carry on.

Harmony and reclamation will be the theme, and after the primary nomination the faithful are expected to dwell together in peace in the house of our fathers.

There are some reforms to be had and some declarations to be made before harmony is realized.

The party law binding Democrats must be rewritten by the hand of sane and unselfish Democrats, inviting recruits and former party men to the fold, under a positive guarantee that all party rights will be strictly vouchsafe to every member of the party.

The house is divided and thousands will never enter it until it is purged of every vestige of unfairness to those who left the fold.

Tobacco Flea-Beetle

The tobacco flea-beetle causes serious damage to tobacco plants in the bed and soon after they are transplanted in the field. If not killed, the plants are often more or less weakened or stunted.

This insect passes the winter in the beetle stage under leaves and trash along the border of and in fence rows. They come out from their winter hiding places and begin to collect on plant beds in March and April. The serious damage usually occurs in April and the early part of May. This insect is a true beetle with chewing mouth-parts that bite off and eat parts of the plant leaves. In the plant beds the beetles feed mostly on the upper surfaces and eat holes through the leaves. Usually the borers or edges of the leaves are most severely attacked. The wilted leaves are usually preferred.

The plants can be protected by dusting with a mixture of paris green and arsenate of lead in the proportion of one pound of Paris green to five pounds of arsenate of lead. Mix thoroughly and apply one-half-pound of this mixture to each 100 square yards. A hand duster can be used, or the dust may be applied by means of a cheesecloth bag shaken over the plants The plants should be coated evenly. A light application is likely to injure the plants.

If preferred, a spray can be used by mixing three-fourths pound of the said dust or one pound of arsenate of lead in twenty-five gallons of water. If beetles are present, it is a good practice to dust or spray about two days before transplanting. This drives the beetles off and coats the plants so that severe injury in the field is prevented.—V. P. I. Station.

In Remembrance

In loving remembrance of my dear husband, Harry T. Woodson, who departed this life, April 12, 1928.

The rolling stream of life flows on.
But in our hearts there lingers still,
The memory of one that we dearly loved,
One whose place can never be filled.
Upright and just in all his ways,
Sweetly tender, honest and true,
Oh! There is not a day, dear Harry,
That we do not think of you
Forgotten to the world by some he may be,
With whom he trod along life's way,
But with us—just farewell for a while,
We'll meet him again some day.
For some where back of the sunset,
Where loveliness never dies,
He lives in a land of glory.
Mid the blue and the gold of the skies,
And we who have known and loved him,
Whose passing has brought sad tears,
Will cherish his memory always,
To brighten the drifting years.

By his loving wife,
GLADYS B. WOODSON.

Colonial House Saved by Art School at Yale

New Haven, Conn.—A house built in North Branford in 1710 and carefully taken apart for Yale university when it was about to be demolished has been restored in part in the new gallery of the Yale art school.

The home yielded original wall paneling, windows, doors, cornices and other decorative pieces. These are regarded by authorities as truly representative of the American colonial and federal periods.

Two rooms have been set up, and through the gift of Francis P. Garvan, Yale '97, early Connecticut pieces and portraits have been hung on the walls to give the atmosphere of a colonial home 200 years ago.

Rides 90 Miles Each Morning to His Class

Seattle, Wash.—When Raymond Jauregui is graduated from the University of Washington he will be fully prepared to catch the 7:48 train for the office. He might well be said to be majoring in commuting.

Every day he makes a 90-mile trip to an eight o'clock class and he is always on time.

Jauregui lives in Tacoma when he leaves home in the dark of morning, he takes a 30 minute street car ride, then boards a train and comes to Seattle and takes a street car to the campus.

"I study on the train," he said. "Nobody disturbs you."

It was believed Jauregui holds a national record for distance traveled regularly by a student.

Wild Rose Leads the Poll for the National Flower

Washington.—The wild rose has passed all other flowers to the polling on the most popular wild flower. Of 83,023 votes cast received in a nation-wide campaign the wild rose leads with 31,209 votes.

The columbine is next with 14,000 votes and the goldenrod third with 10,400.

Campaigns are on in 21 states through women's clubs and schools. In all the campaigns the wild flowers are studied over a period of weeks before the day set for the votes.

The American Legion auxiliary, which is conducting the poll for the most popular wild flower, reports that phlox, violet and daisy are running strong, while dogwood and mountain laurel are building their votes.

There is no need to suffer pain from lame muscles, stiff joints or from strains, sprains or bruises longer than is needed to rub thoroughly with Munyon's Solidified Liniment. Its ingredient base retains on the skin seven medicaments approved by specialists. The pores are opened, circulation restored, and congestion ended. Avoid the spilling, slopping and waste that usually occurs when you use liquid liniments. Munyon's Solidified Liniment is an old and practical liniment in a new and handy form.
